Hi! I'm Kathryn - a full-stack web developer with technical skills in javascript and an affinity for front-end design. Currently engaged in contract work creating homepages, branded content and product photos for professionals & small businesses - interested in a full-time web developer position with tremendous opportunity for growth + a positive work environment.

Experience accumulated in communication, leadership, client needs assessment, and visual+audio content creation is attributed to my dynamic and unconventional history as a musician, art student, social worker, and high-volume bartender. Recent global events sparked a need for change, which then lead to my application, acceptance, and awarded scholarship to the Ohio State University's Full-stack Web Development Bootcamp, and my pursuit to become a web developer.

Vivid imagination and idealism motivate my initiative to build practical solutions to problems, while prioritizing elegant design and an intuitive user experience.

TECHNICAL SKILLS

Git | HTML | CSS | JavaScript | SQL | NoSQL
GitHub | MongoDB | MySQL | Heroku
jQuery | Express | Node | Handlebars | React
Bootstrap | Material UI | Semantic UI | Materialize | Foundation
Responsive Design | Visual + Audio Content Manipulation

PROJECTS

Custom Workforce Manager [CODE] https://bit.ly/3BqAMRA [LIVE] https://bit.ly/2WLUnN6
