Full-stack web developer with technical skills in JavaScript, and an affinity for front-end design. Currently engaged in work as an Instructor for a Junior Web Developer bootcamp program. Interested in a full-time developer position with plenty of opportunity for growth and a positive, healthy work environment.

Experience accumulated in communication, organization, curriculum design & implementation, leadership, client needs assessment, and content creation is attributed to my dynamic, unconventional history as a musician, artist, social worker, and high-volume bartender. The pandemic sparked a need for change, which then lead to my application, acceptance, and awarded scholarship to the Ohio State University's Full-stack Web Development Bootcamp, and my pursuit to become a web developer.

TECHNICAL SKILLS

Git | GitHub | HTML | CSS | JavaScript
APIs | Node | Express | mySQL | MVC Framework
NoSQL | PWAs | React | MERN Stack | Responsive Design
Unit Testing | Microsoft Office
